

> ACOUSTICS. NOISE. VIBRATION.

PATCHING ASSOCIATES ACOUSTICAL ENGINEERING

ENGINEERING SILENCE

Patching Associates collaborates with clients to quickly, effectively and proactively manage noise, acoustic and vibration challenges. We are an independent consulting firm, with no affiliations to suppliers of noise control materials or equipment, ensuring clients receive the optimal solution.

We provide responsive and effective analysis and solutions through standardized methodologies and processes that seamlessly integrate with custom-developed noise modeling software.

SOUND SOLUTIONS

Patching Associates offers independent and specialized consulting services to the oil and gas, transportation, power generation, architectural, mining and industrial sectors.

Our services include:

- Regulatory Consulting
- Noise Impact Assessments
- Complaint Investigation and Resolution
- Advanced Simulation
- Predictive Modeling
- Vibration Assessments
- Expert Witness Testimony
- Occupational Noise Studies
- Noise Control Recommendations

MANAGE RISK. OPTIMIZE COSTS.

With over 4,500 projects completed over the past two decades, Patching Associates helps clients successfully manage risk and optimize noise control costs.

We specialize in identifying and eliminating potential acoustic, noise and vibration challenges during the pre-design phase of project development, helping our clients mitigate the risk of delays, circumvent complaints and avoid expensive retrofit costs.

“Patching Associates’ responsive, information-based service went beyond the standard delivery in providing Pembina with results that were grounded and readily applicable to our work. They clearly demonstrated how they achieve real solutions through theoretical studies supported by actual measurements.”

Paul Dowell
Senior Commissioning Coordinator
Pembina Pipelines
